CRM & Automation:	Zoho CRM, Zoho Campaigns, Zoho Forms
Business Analysis:	Business Process Analysis and Modelling
Testing:	Web Application Automation Testing, ACID – Email Testing, A/B Split Testing
Certification:	AWS Certified Developer Associate 2018

EDUCATION

Master of Business Information Systems **Feb 2016 – Dec 2017**
Australian National University, Canberra, ACT
Key Subjects: Business Administration, Business Analysis, and Business Analytics

Bachelor of Computer Science and Engineering **Jul 2011 – Jul 2014**
Shivaji University, India
Key Subjects: Computer Programming, Computing, and Professional Practices

PROFESSIONAL SUMMARY

Developer Programmer **Sep 2024 – Mar 2026**
Ameya Informatics, Australia

- Developed and maintained high-converting WordPress landing pages to support digital marketing and lead generation campaigns
- Implemented Zoho CRM integrations with WordPress to capture, sync, and manage leads automatically
- Built and integrated Zoho Forms into websites and landing pages for seamless enquiry and data collection
- Configured and managed Zoho Campaigns and marketing automation workflows for email nurturing and customer journeys
- Produced campaign performance reports and CRM dashboards to support marketing and sales decision-making
- Diagnosed and resolved integration, form, and automation issues to ensure reliable lead flow
- Tracked tasks, campaign timelines, and deliverables using Trello to ensure on-time execution

Marketing Cloud Web Developer Programmer **Jan 2022 - May 2023**
Marketing Cube, Australia

- Developed and customised emails, landing pages, and forms using HTML, CSS, JavaScript, and platform-specific scripting
- Implemented dynamic content, segmentation logic, and personalisation rules within Oracle Eloqua.
- Integrated Eloqua with CRM systems and SMS gateways via REST APIs
- Troubleshot and resolved tracking, integration, and data flow issues across enterprise-scale marketing platforms
- Built campaign and asset performance reports to inform optimisation decisions

Systems Administrator **Jan 2021 – Jun 2021**
Aim Institute of Health & Sciences, Australia

- Maintained and enhanced Moodle LMS and organisational websites
- Managed user authentication, access control, and system configuration
- Supported data backups, integrity checks, and production issue resolution

Web Developer **Dec 2019 – Apr 2020**
ACT CABS Pty Ltd, Australia

- Improved website performance, load times, and responsiveness across devices
- Migrated the production site to AWS cloud hosting
- Implemented new features and UI enhancements to improve user experience

Web Developer Intern **Nov 2019 – Apr 2020**

Australian National Character Check Pty Ltd, Australia

- Built test applications to validate third-party API-driven bankruptcy checks
- Performed API testing, response validation, and document generation verification
- Tracked defects and task progress using Asana and implemented CI/CD workflows with Git

Junior Developer **Jan 2019 – Mar 2019**

ToukanLabs, Australia

- Supported development of a PHP (Yii) web application, implementing backend changes and bug fixes
- Executed automated tests using Behat BDD framework to validate application behaviour
- Collaborated with the development team using Jira, Git, and Slack to deliver solutions on time

PERSONAL ATTRIBUTES

- Team player who communicates and collaborates effectively to address challenges and maintain a productive work environment
- Strong problem-solver who applies planning and evidence-based techniques to work and technical challenges
- Committed to continuous learning and professional development to stay current in the IT industry.

ACHIEVEMENTS/AWARDS

- Awarded a fully funded scholarship by the Maharashtra Government, India, to study a Master's degree at the Australian National University
- Contributed to 200% student enrolment growth at a well-known Australian university through a marketing automation project
- Generated over $35,000 in revenue for a local Canberra business within one year through web and email marketing
- Developed a sustainable IT system prototype for one of the largest dairy producers in India as a final-year engineering degree project
